

1.

DWCS has recently signed a contract to act as Sales Agent covering the UK and Ireland for Turkish Foundry, **Denizciler**.

Based in Izmir, Denizciler was established in 1978 and produces Grey and Ductile Iron castings in the weight range 0.20 – 3000 kgs, as well as supplying a range of pipe / tube fittings under the trade name **euroklemp®**. An established UK company is currently being sought to act as the Distributor for the euroklemp fittings. The addition of Denizciler into the DWCS portfolio is seen as complimentary to the existing supply base on offer to customers. Further details on Denizciler can be viewed on the DWCS website.

2.

JS Auto Cast won an order in Dec '09 to supply a major multi-national turbo charger manufacturer with prototype housings in a HiSiMoCr Grade. The housings will be supplied fully machined using JSAC's in-house machining facilities.

W.G. Partnership

3.

DWCS has set-up a partnership agreement with a former colleague to offer a complete support package to clients. Known as

W.G. Partnership,

details of the cooperation between David Wright and Alan Gibson, and full details of services offered, can be viewed by going to:

www.wgpartnership.co.uk

W.G. Partnership will operate in association with DWCS.

An agency agreement has already been signed with an Investment Foundry based in the Czech Republic, and negotiations are currently on-going with 2 other potential supply companies.
